SKILLS

- HTML
- CSS
- JavaScript
- PHP
- DBMS
- C++
- Python
- React
- UI/UX
- Firebase
- GIT

LANGUAGES

- English
- Tamil
- Hindi (Read & Write)
- Malayalam (Basic)

ACHIEVEMENTS

- 3rd Prize - Cyber Contest 2023
- INSPIRE Award (MANAK)
- Former UG Class Representative
- Code Golf Participant - PTU
- Active in inter-college tech events

PROFESSIONAL SUMMARY

MCA student and aspiring software/web developer with hands-on experience building web applications using HTML, CSS, JavaScript, PHP, React, and Firebase. Developed projects in service management, task management, billing, and AI-based resume screening, with additional research exposure in hybrid CNN–quantum models.

EDUCATION

Master of Computer Applications (MCA)	B.Sc Computer Science
Pondicherry University 2025 - 2027 Currently Pursuing Final Year 1st Year CGPA: 7.76	2022 - 2025 CGPA: 7.94

PROJECTS

Mobile Service Management System

Tech: HTML, CSS, PHP, AJAX
Developed a web-based system for managing mobile service requests and repair tracking.

Hybrid Quantum-Classical Deep Learning Architecture for Medical Image Classification

Integrated Quantum Computing concepts with CNN architecture for medical image analysis.

Premium To-Do App

Tech: React, Firebase
Developed a feature-rich task management application with task creation, priority, categories, due dates, notes, search, and task organization.

AI Resume Shortlisting System

Tech: Python, NLP, Machine Learning
Developed an AI-based system to analyze resumes and shortlist candidates based on job requirements, skills, and relevance using NLP and machine learning techniques.

Billing Management System

Tech: React, JavaScript
Developed a billing management application for generating invoices, managing products, calculating totals, and maintaining customer billing information.

RESEARCH PAPERS & CERTIFICATIONS

- Cisco Ethical Hacking Certification
- Robotic Process Automation
- Blockchain and 5G
- Quantum Computing & IoT Industry 4.0
- NCICT'24 - Dr. M.G.R University
